The cause of the WIB was roots in the public right of way. MSD also repaired the house tap (lateral) on January 5, 2005.

This was WIB 501. It did occur on December 30, 2004 and it was cleaned on January 17, 2005. It is my understanding that the customer has 2 years from the date of the incident to file a claim.

The cause of the back up appears to have been roots in the right of way. I will have to get clarification on that because the complaint is not clear to me.

*Will you give me an update please on this claim.
I requested information on this claim on 3/23/07,
and she's already calling for the status of her claim.
From what we can tell she missed the statute of Limitations,
but Terry would like to get your input anyway.*
